

A meeting summarizing the results of the project SAVE Start-ups - Multiplayer Event was organized by the Rzeszow Regional Development Agency S.A. during the event entitled Carpathian Startup Fest 2021 (CSF21), which took place on 28 October 2021 in Rzeszow.

The meeting was attended by start-ups from Podkarpackie Voivodeship, young entrepreneurs, youth as well as trainers and providers of vocational training and business support institutions. During the meeting, the intellectual outputs of the SAVE Start-up project were presented: the curriculum and digital educational materials available online as m-learning application. The materials include issues related to digital entrepreneurship and Industry 4.0 included as seven training modules on:

- Digital start-ups vs. Digital scale-ups
- Circular economy in your start-up
- Digital Lifestyle Entrepreneurship
- Internet of Things in entrepreneurial practice
- Infrastructures of sensors in daily business usage
- Analytics Algorithms for Customers BigData
- Cybersecurity in your start-up

Invited guests gave interesting presentations on the most common mistakes made when creating start-ups and on intellectual property and ways to protect it. Conference participants also had the opportunity to test the m-learning platform and get acquainted with educational materials.
