

## NEWS ME PT

The Dissemination Conference in Portugal took place on the 1st of October 2021, at Escola Profissional Gustave Eiffel (EPGE), in the city of Amadora, in the region of Lisbon. EPGE is a Vocational Education and Training centre that was chosen as the Dissemination Conference venue due to its wide network of VET teachers, professionally well succeeded former students and companies and business associations that host the students during their work-based learning. Furthermore, EPGE strongly promotes entrepreneurship to its students and has links with business hubs and start-ups.

The event had four speakers: the Director of EPGE, a SAVE Start-Ups project manager, a training coordinator and one company director. In total, 42 persons attended the event. Among them, there were VET students that are attending the last year of their training courses, VET teachers, training coordinators, young start-uppers, companies' directors and representatives of business associations. The feedback on the project received from the audience during the Conference was very good. The participants were engaged on it, as they put many questions to the speakers, demonstrating their interest in the project and its contents.
